Thanks. I think we should keep the sentences that Will highlighted in the letter to the state. It's not mushy, and important, particularly with regard to keeping the pressure on to do more on Ag—as well as not backsliding on everything else. As for his edit to the FRN—and a similar sentence in the letter—ironically, I think it adds to the “mushiness” that he opposes. But I care less about that edit.

The idea is for Dennis to sign today and then we would Fed Ex it to NOAA for signature by Russell Callender.
